

Mid-term Project Presentation

(Announced in the class on 3/31/05 and posted on 4/02/05)

Schedule: Tuesday (4/05/05), Thursday (4/07/05), and Tuesday (4/12/05).

- *Major Grade Requirement*
- *Report is required for those who have not submitted it by the last deadline.*

The Mid-term progress on your project work will be monitored through a report (that many of you have submitted) and a short presentation. A group having two members will take 20 minutes and sole member group will take about 12-15 minutes in the class for this presentation. The schedule is conveyed to you by e-mail. You will be brief on your introduction and related work here. It is important that you show the results available until now and your plans towards completing your work. Ten to twelve slides seems to be okay unless you have a lot of results to show in different formats.
